

DIGITAL IMPLANT TX PLANNING & GUIDED SURGERY

SIMPLE & EFFICIENT WORKFLOW

1. Treatment Planning - Clinical Records & Impressions

- Send us your mandibular & maxillary impressions, along with a bite registration & a profile of patient pictures (*call to discuss*).

2. Preparation & Scanning

- Call Kirsten Hughes to discuss strategy & protocol BEFORE scanning.
- Take a CBCT Scan & submit DICOM data digitally or as a formatted disk.

3. Web/Phone-Based Planning Consultation

- Schedule your meeting with Kirsten to review & finalize your DTP.
- Your surgical guide will be fabricated & shipped within 3-6 business days.

4. Surgical Procedure - Guided Surgery & Implant Insertion

- Place your implants with precision & confidence.

BENEFITS

- Improved form, function & quality of life for patients
- Long-term restorative success
- Increased case acceptance
- Minimally-invasive, precise & predictable implant placement
- Sidestep the cost of ownership of compromised case
- Customized to your preferences
- Potentially reduce consult & increase case acceptance
- Can be combined with all-inclusive surgical & restorative packages
